**The BAUHAUS4EU Alliance wishes everyone happy holidays and an excellent start to 2026!**

The year **2025** has been both **challenging** and **rewarding** for our Alliance, marked by the project launch, the first Forum in Portugal, and the inaugural edition of the photo contest, among many other achievements. As we look ahead to **2026**, we anticipate an **inspiring year** filled with workshops, thematic seminars, engagement activities, the second Forum in Poland, and a new edition of the photo contest. We look forward to continuing this journey **together** with the entire BAUHAUS4EU community and our valued partners.

### Inclusive Grounds: Stories of Belonging and Resilience

**The challenge has been accepted! Visual Stories Compete for the Top Three Places**

Students from the ten BAUHAUS4EU universities and one associated partner **turned their lenses** to their study surroundings to reveal the **invisible forces** behind the obvious. The stories disclose what touches **students' souls**, what excites, sustains, creates a **sense of belonging** and motivates them to continue on their (often strenuous) path to unlocking their potential, fitting into or struggling

with the community, and overcoming the challenges they face. Shot in **different cultures and contexts**, all the finalist photographs carry a **common message**: our universities are vibrant and resilient environments, connecting lives and minds, arts, nature and material objects in (un)ordinary, but beautiful ways.
